Map Styles

Basic
• Great option for business presentations.
• Conventional colors with typical map detail.
• Includes parks and water labels.
• Great for overlaying data like demographics, locations, territories and more.

Premium
• Attractive display and abundant reference information.
• Shading on populated areas.
• All points of interest including bodies of water, parks airports and more.
• Great for decoration, reference, market analysis, site selection and more.

Red Line
• Easy to read display with basic map detail.
• Overlay locations, territories, and other information on your map.
• Bright red colored Zip Code labels and boundaries.
• Clean white background makes them great for overlaying data including demographics, sales data, customer & competitor locations, territories and more.

Color Cast
• Polychrome display shading adjacent Zip Codes with different colors.
• Quickly and easily distinguish one Zip Code from another.
• Great for territory design, delivery planning, direct mail and more.
